Web Developer

Hello, my name is Umang Tiwari I graduated with **Bachelor's of Computer Application** from Guru Gobind Singh Indraprastha University. I'm skilled in front-end web development, but I'm still figuring out back-end web development. I'm also great learner who is eager to explore and experience modern technologies.

Highly motivated and passionate fresher with a solid foundation in multiple programming languages and web development technologies, ready to apply my skills and contribute to innovative projects.

Skills Learned

Languages and Databases: HTML | CSS | JavaScript | React Js | Bootstrap | PHP | C | C++ | MySQL | Django | Python | Java | **Web Development** | Android Development

Other Skills: Advanced Excel, MS Word, MS PowerPoint

Projects

Code Copy Cat – React Component library

A customizable React component for displaying code snippets with syntax highlighting and copy-to-clipboard support. Built with React.js and JavaScript, it supports multiple themes and flexible props for seamless integration.

Summer Training Internship/Project

WorkWize Job Portal App

App Developer Intern

June 2024 – July 2024

New Delhi, India

- **Innovative Job Portal:** **WorkWize** is an app designed to streamline job searches and recruitment for job seekers and recruiters.
- **Key Features:** It includes job notifications, premium memberships, Razorpay integration for payments, and customizable themes (dark/light mode).
- **User-Friendly Interface:** The app offers separate dashboards for job seekers and recruiters, facilitating easy access to relevant functionalities.
- **Robust Technology Stack:** Developed using Android Studio, Java, XML and Firebase services for secure authentication and data management.
- **Problem-Solving Approach:** Addresses common challenges like inefficient job searches, lengthy application processes, and poor feedback for job seekers, while enhancing recruitment efficiency for employers.

Minor Project

WorkWize Job Portal Website

Web Developer Intern

August 2024 – December 2024

New Delhi, India

- **Advanced Job Portal:** WorkWize is a web platform designed to simplify job hunting and recruitment for both candidates and employers.
- **Core Features:** Offers instant job alerts, premium subscription options, Razorpay integration for secure transactions, Recruitment Assessment test auto-submits if fullscreen is exited.
- **Intuitive User Experience:** Features distinct dashboards for job seekers and recruiters, ensuring smooth navigation and efficient job management.
- **Modern Technology Stack:** Built using HTML, CSS, JavaScript, Django, Firebase for authentication and data handling, and Razorpay for payment processing.
- **Impact-Driven Approach:** Tackles common issues like complex job searches, slow application processes, and lack of feedback while optimizing recruitment workflows for employers.
